

DTK Trailer Drain Jetter

Model / Technical Details	DTK 500 Trailer
Pressure and Flow	Up to 275 bar / Up to 55 litres per minute (4000 psi / 12 gpm) Up to 350 bar / Up to 41 litres per minute (5000 psi / 9 gpm) Up to 415 bar / Up to 32 litres per minute (6000 psi / 7 gpm)
Pump	P Type radial piston diaphragm
Engine	Stage 5 emission compliant water cooled diesel
Water Tank	Twin interconnected water storage tank with total capacity of 500 litres (110 gallons)
Frame	Box section steel blasted and powder coated
Hose Reel	Variable-speed hydraulic-rewind hose reel with 120m high pressure hose capacity
Dimensions	3290mm long x 1690mm wide x 1350mm high
Weight	Dry weight from 1000kg dry or 1500kg full (plated weight is 1600kgs)
Suggested Accessories	1/2" standard jetting hose 90m (300ft) 3 x 1/2" standard drain jets (3r, 3r1f & 6r) 1/2" safety leader hose 3m (10ft) 1/2" drain jet extension 9" Inlet hose reel

Description

The new DTK trailer drain jetter delivers huge cleaning power of 4,000 psi at 12 gpm. P pump can drive the hose deep into sewers blocked with silt, fat, scale or roots, restoring flow in a matter of minutes.

It has jetting power to clean 300mm drains quickly and professionally. The twin plastic tanks are lightweight and corrosion free. They can hold 500 litre's (110 gallons) and both have access covers making them easy to clean.

The hydraulically powered hose reel, with speed control and free wheel facility, increases productivity by reducing down time. The reels freewheel mode lets operators pull off long lengths of hose in just a few seconds. The speed control lets operators match the pull back speed to the task – quicker for silt and slower for scale.

Its latest low emission diesel engine, hydraulic hose reel and radio control system make it ideal for contractors who work alone and in urban environments.

The 7 channel radio control (option) lets the operator start, stop and vary pressure from up to 100m away. The handset is shock resistant and waterproof.

With options up to 6000 psi (415 bar) and flows to 12 gpm (55 lpm) the DTK trailer jetter can take on a multitude of high pressure cleaning tasks. Drains, floor cleaning and even culverts can all be tackled by the immensely powerful machine.

Optional Accessories

- Radio control
- Inlet hose reel
- Jump jet kit
- Anti freeze kit
- Safety leader hose
- Tiger tail
- 1/2" Standard drain jets
- Rotary descaling jets
- Mini jet kit
- 9" Drain jet extension
- Spray gun
- Hose safety shroud
- Safety equipment
- (PPE)

Company Profile:

Hydroblast's experience in the high pressure water jetting industry has enabled us to gain access to a range of water jetting pumps and accessories, suitable for numerous applications in the industrial and marine industries.

Hydroblast can supply complete packages to end-users as well as bare shaft pumps and parts. Our main goal is to supply quality products at a competitive price level.
